AGENDA

- Intrusive / proactive advising & retention
- Best practices
- Critical outreach points
- Anticipating student challenges
- Resources
Intrusive / Proactive Advising & Retention
Retention & Intervention

• Proactive Outreach
• Research has shown:
  – the importance of academic advising in student retention
With intrusive advising, the INSTITUTION takes the initiative in working with students and not waiting for them to come forward when they experience difficulties.” (Glennen, 1975)

“...is about getting to the heart of what is causing difficulty for a student and recommending the appropriate intervention.” (Earl, 1987)
WHY

• Academic advising is the only structured activity on the campus in which all students have the opportunity for ongoing, one-on-one interaction with a concerned representative of the institution (Habley, 1994)

• Retention research shows that contact with a significant person within your institution is a crucial factor in a students decision to remain. (Heisserer & Parette, 2002)
In what ways?

- Contact after midterms/warning flags
- Registration block on probationary students/others
- Mandatory “meetings” for students
- Bringing services to high-traffic areas
- Student success planning
- Institutional policies
Best practices
Appreciative Advising

- Key component of academic advising/coaching is grounded in the appreciative advising framework
- Relationship Building
- What’s the secret?
  - You have to care
  - Authenticity
- Students return when you care

Academic Coaching and Career Enhancement for Student Success (ACCESS)

The ACCESS Program offers a comprehensive approach to student success that focuses on academic coaching/advising, tutoring, career counseling, faculty mentoring and developing a meaningful connection to Florida Atlantic University, all of which lead to student retention.

Predictive Analytics

• **Mission:** To address individual student indicators associated with high probability for adverse effects on academic success. Facilitate a coordinated strategy to link students with student success programs and services and monitor their progress.

• **Goal:** Improve FTIC Progress rate of students retained at the university with a 2.0 GPA or better.

• **Objective:** Increase FTIC retention by 6% for students entering in summer/fall 2015-2016 with a >2.0 by May 2016. (Baseline 70%, Target 76%).

• **Theory of Change:** If we use a statistically significant predictive model to identify students with increased probability for academic failure and intervene early with academic/campus engagement programs and services we can reduce risk and increase the probability for successful academic progress.

IN CONCLUSION

“Most of us will not find answers to the causes of cancer, or solve the problems of homelessness, or defuse international conflicts, but we feel that through our advising, we may be able to make a small but pivotal contribution to our students’ ultimate work...It seems to me that our students represent an unequivocal reply to Margaret Mead, when she famously said: ‘Never doubt that a small group of thoughtful, committed people can change the world. Indeed, it’s the only thing that ever has.’”
