2. Items raised during full Commission meeting/committee reports.
   a. The group discussed points of interest raised during discussions at the earlier meeting.
   b. Possible topics or speakers for Hendrick keynote were discussed:
      i. Lumina Foundation-Around college completion. Possibly addressed their “Complete College America” program in way that aligns with our audience.
      ii. For veteran/military focus—The White House’s 8 Keys to Veterans Success or the Department of Ed and Veterans Administration’s Principles of Excellence in Veteran Recruitment and Retention. Possibly invite Curtis Coy. If we pursue Coy as a speaker, Ted Timmerman may be able to assist with extending the invitation to speak.
      iii. The Department of Education’s college scoreboard. Include the concept behind it and how to provide useful information to students making decisions about enrolling.
      iv. Wills noted that the planning committee needs to have content finalized by the beginning of February 2016 for building registration form. The planning committee will be setting the overall agenda at its November meeting and is open to feedback on the agenda structure and number of sessions as well as theme.
      v. Thigpen described the student story which prompted the idea to make successful outcomes the tentative overarching theme for the 2016
conference. The idea could be extended to find a keynoter who was an adult learner as presenter could weave in success to sessions. The committee may ask campus Adult Enrollment Coordinators to identify potential speakers.

c. Martha gave an update on high school transcript requirement for adults. For adults who have 18+ transfer credits, a high school transcript may be waived for admission decision.
